

# S.H. 44 Corridor Preservation Study Process & Schedule

2006-2007

## Community Involvement

### Public Participation

- Workshops
- Open houses
- Newsletters
- Web site
- Property owner meetings

## Environmental/Engineering

### Environmental

- Conduct studies
- Coordinate with agencies
- Incorporate community input
- Identify range of alternatives  
(the proposed changes to the corridor)
- Identify preferred alternative

**Draft  
Environmental  
Impact  
Statement**

### Corridor Preservation Committee

- Throughout the process, local elected officials, agencies and planners will meet to coordinate decision making on issues like access, land use and development.

### Engineering

- Conduct studies (*right-of-way, lane configurations, access management*)

2008

- Public hearing on Draft Environmental Impact Statement (DEIS)
- Respond to public comments on DEIS
- A decision about the DEIS will be made by the Federal Highway Administration
- The public will be notified of the decision
- If approved, the design of the project will be finalized and the corridor preservation study will be adopted by the Community Planning Association of Southwest Idaho and Idaho Transportation Department
